Leetcode

SUMMARY

Aspiring software developer with a strong foundation in OOPs, Data Structures, Algorithms, Operating Systems, and REST API development. Seeking to leverage skills in Node.js, React.js, and Javascript to build scalable, impactful software solutions.

EDUCATION

Nitte Meenakshi Institute of Technology ,Bengaluru, India

Bachelor of Engineering - AIML; CGPA 8.17

2023 – 2027(present)

PoornaPrajna Pre-University College , Udupi, India

12th; 91.33 %

Nirmala Convent school , Chikamagaluru, India

10th; 95.84 %

WORK EXPERIENCE

Skill Craft Institute of Technology [Remote]

Machine Learning Intern

- Developed and deployed ML models with up to 92% accuracy on classification, regression, and clustering tasks
- Preprocessed 10,000+ data points and engineered features using Scikit-learn and Pandas
- Visualized model insights and performance metrics to support decision-making

PROJECTS

AI Resume Analyzer

Tech Stack: Python, Flask, NLP, OpenAI API, HTML/CSS, Bootstrap

- Built a GPT-based resume analyzer, reducing screening time by 60% and improving evaluation accuracy
- Designed a responsive frontend with Bootstrap and enabled file uploads, dynamic analysis, and GPT-based summaries

Enhanced Task Manager

Tech Stack: Node.js, Express.js, MongoDB, EJS

- Developed a full-stack task manager, increasing task completion efficiency by 40% through personalized dashboards
- Used MongoDB for backend storage and EJS templating for dynamic front-end rendering

GoQuant – Financial Analysis Dashboard

Tech Stack: Python, Streamlit, yFinance, Pandas, Matplotlib

- Built a real-time stock dashboard using yFinance and Streamlit, improving data accessibility by 70%
- Visualized trends, returns, and ticker comparisons, enhancing financial insight and analysis speed by 60%

TECHNICAL SKILLS

Programming Languages: C, Java, C++

Tools and Platforms: Git, GitHub, Kaggle Notebooks

Libraries and Databases: JavaScript ecosystem, Python ML/DS stack

Technologies and Frameworks: JavaScript/TypeScript, HTML, CSS, Python

Additional Skills: Full-stack development, Machine Learning and Data Analysis, Software Engineering, Project collaboration and open-source contribution

CERTIFICATIONS

- **ISRO** – Geodata Processing with Python: Hands-on training in spatial data handling, AI/ML modeling, and geospatial visualization
- **Full-Stack Web Development** – Angela Yu (Udemy): Covered frontend and backend development with HTML, CSS, JS, Node.js, and MongoDB and **Java programming** - Abdul Bari (Udemy).
